## VW wins Top Caravan award

*Presentation of awards: from left, Richard Holdsworth, Bernard Clarke (Chairman, Motor Caravanners' Club), Iain Macpherson of Autohomes, and Roger Ennis of Bowers Motor Caravans who showed the two winning 'vans.*

The Motor Caravan of the Year contest, held at the recent Motor Caravan Fair at Billing Aquadrome, Northampton, produced joint winners in the panel vans conversion category.

Sharing top spot with equal marks (in an assessment which takes into account design, quality, the merits of the base vehicle and, not least, value for) were the Holdsworth VW *Variety* and the Autohomes Talbot Express *Camelot*.

The *Variety*, built on the hightop version of the VW Transporter with 78

bhp engine, scored highly for its innovative layout, which provides the best kitchen arrangement yet in a Type 2 VW; for its spaciousness; and for the eye-appeal of its neatly rounded furniture units and good colour co-ordination.

The *Camelot*, also a hightop model, was exceptional in its imaginative use of space. Full use is made of the cab in the lounge/sleeping arrangements, there is a practical centre kitchen layout and the rear of the van partitions off to provide a shower/toilet cubicle.
